

✔ U are CEO

Keep control of your business and EBITDA at all times.

Make quick and informed decisions, identify emerging trends and real-time result deviations, anticipate and seize profitable growth opportunities with appropriate dashboards.

SalesVisionary presents your data methodically, strategically, and structured. On one screen and without data manipulation.

✔ A comprehensive and personalized view of all key indicators

Previous and current business results of customers, sellers, and products in comparison to competitors: monitor your business performance continuously and with precision.

✔ Analyses based on 10 years and enriched with external data

For a comprehensive view of your successes, challenges, and profitability of each commercial investment, your analysis reports integrate and interpret data enriched by your last 10 years of activity. Every decision becomes clear.

✔ Clear dashboards at a glance

SalesVisionary analyzes your data thoroughly and strategically, presenting them in straightforward decision tables. Enlightened answers in just a few clicks that require no interpretation to act proactively and tailor-made for each target audience and deviation.

✔ A simulator that indicates the full potential of the company

SalesVisionary stimulates results automatically for every customer and seller: validating an ambitious and realistic budget and strategic action plan becomes clear, simple, and effective while controlling commercial costs.

✔ Easy, fast, cost-effective implementation

Installation and customization of your application take only a few days. No need for you to change your current software, even if your data is not up to date.

✔ Ensuring your data is always secure

Because we know how precious your data is, it is all stored in Europe in a fully secure, dedicated space. We comply with the strictest standards of compliance and confidentiality.
